MEMORANDUM FOR: Deputy Director for Intelligence
Deputy Director for Science and Technology
Deputy Director for Plans
Director, National Estimates

SUBJECT: Standing Request for Information

In order to keep up-to-date on developments in the USSR which have a bearing on the recently-concluded SALT agreements, and on strategic arms limitation in general, I have requested regular routing of relevant CIA published intelligence issuances. From time to time, however, the components in your directorates will probably have occasion to write informal memoranda, addressed to you or the DCI or other recipients, reporting and analyzing Soviet developments which are SALT-related. It would help me to do my job if I could receive an information copy of any such memorandum. Of particular interest are memoranda dealing with developments which may have a bearing on Soviet compliance with the recent agreements, or which deal with intelligence programs, plans or problems directly or uniquely related to the task of monitoring Soviet compliance. Please request the components in your directorates to send me a copy of any such memorandum.

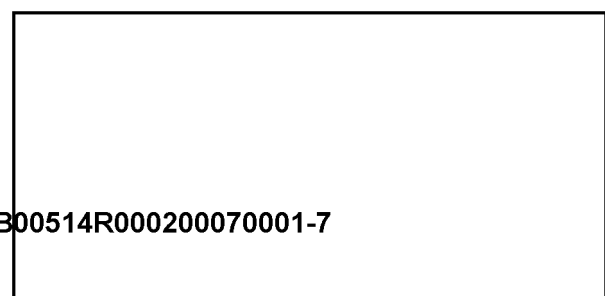

Howard Stoertz, Jr.
Special Assistant to the DCI
for Strategic Arms Limitation
